EDUCATION

Vanderbilt University — B.S. in Computer Science, May 2019 — GPA: 3.6

- CS 2201 - Program Design & Data Structures (A)
- CS 2231 - Computer Organization (A)

John P. Stevens High School — 2011-2015

EXPERIENCE

Software Engineer, Intern; CADRE; New York, NY Summer 2016

- Created application for administrators to monitor investor activity in company acquisitions using React.js and Redux
- Increased efficiency of product demo preparation by over 200% by setting up a demo environment and automating its content population with Python
- Demoed features in weekly all-hands meeting to team, board, and investors

Dev Team; VandyHacks; Nashville, TN February 2016 - Present

- Created tools for the VandyHacks hackathon to allow for a better hacker experience, including registration website and check-in app

SELECTED PROJECTS

Peer Pressure FiskHacks Spring 2016

- Worked with a small team to create an Android alarm clock app
- Designed and implemented SQLite database to retrieve and store contacts from the user's phone contacts
- Implemented alarm capabilities and feature to call random contact upon snooze using Java

VandyPlanner Nov. 15 - Present

- Worked with a partner to create a mobile course planning assistant
- Created multiple scrapers and parsers for Vanderbilt's course catalog in Node.js, including a course detail parser, and a scraper + parser for the sections being currently taught
- Created query language to allow app to retrieve set of courses from database

File.ly HackRU Fall 2014

- Created a secure and private file-sharing service using 2-factor authentication with a Pebble
- Implemented backend using Node.js and MongoDB to store files and user information, and send emails using SendGrid to file recipients
- Created website front end to upload and download files

AWARDS & HONORS

FiskHacks Spring 2016 - 1st Place

Codeday NY Spring 2014 - 1st Place

PennApps Fall 2014 - Intel Internet of Things Award

PennApps Winter 2015 - Honorable Mention for Best Health Hack
